10-30V
40x3W
562 x 90 x 60mm

W-Light Hurricane is the follower of very popular Typhoon series. Hurricane lights are assembled using latest high tech optics and led components. Advanced electrical components have been fitted inside very durable housing. Aluminium body is stylish carbon gray and dark front side gives the light very elegant and eye catching finish. Hurricane lights have been slightly curved to achieve modern design and better installation options(Hurricane 36W is straight). Width of installation bracket is adjustable to give more installation options. Lights are equipped with 2,2m cable with pre-installed DT pins so the connections can be made in a safe place under the hood.
