10800lm (7400lm)
6000K
12/24V
563 x 58 x 78mm
40x3W OSRAM + 20W

W-Light Snowstorm is a very powerful auxiliary light. Osram led technology provides a ellips shaped long beam. Snowstorm has an automic heating function designed especially for very cold environments. The heating function startas at below +5°C temperatur. After the lamp reaches temperature of +40°C the heating turns off and the colling elements keep the lamps temperature at optimal level. Snowstorm has a very wide range of mounting options covering bottom, upper and side brackets. Snowstorms connections can be made near the battery because of its 2,2m cable with pre attached DT-pins. 20W heating element.
