15x7W Cree LED
IP67
532 x 46 x 70mm

W Wave is a low-profile bar auxiliary light. Its attractive and sturdy slightly curved bar can easily be installed unobtrusively. A 2.2 m cable with pre-attached Deutsch pins and separate Deutsch housing makes close installation easy and connection can be made near the battery. Side and bottom brackets. A novelty for Autumn 2018!
