Despite of it's very compact size this auxiliary light bar provides optimal beam. Beam has even ammount of light on it's entire coverage area. Because of 1lx line of way more than half a kilometer away this light is most powerful option in this price category. Color rendering index of this light is phenomenal and color temperature is very pleasant. Multiple mounting options guarantee easy installation and long DT-cable provides safe connection under the hood. With "Plug&drive™" connection kit (no. 1605-WK031) the light is ready to be used in no time.
