

X-Vision D-MaXXX

300W
25200m (19150lm)
5000K
10-32V
60x5W OSRAM
863 x 75 x 57mm

D-MaXXX is an auxiliary light for uses requiring ultimate lightning power. Beam reaching over 650m length lights up with massive 19150lm tested light output. Color rendering index of this light is phenomenal and 5000K color temperature is very pleasant. Multiple mounting options guarantee easy installation and long DTP-cable provides safe connection under the hood. With "Plug&drive™" connection kit (no. 1605-WK035) the light is ready to be used in no time.
